I was wondering if you could further create a table, much like the Summary ENFActionCounts tab, that places the rules in column A versus the district/LPA. The concern that I had was that for the Summary_EnfActions_VioTypes tab, I would need to manually tally all the discrete violations into a summary table such as you created for the districts and LPAs, but with the rule name in Column A. I do think that the VioTypes tab is also useful for DDW to verify with their districts and LPAs to ensure that data is flowing properly.

Thanks for working on this!

$$\langle \bar{\psi} \psi \rangle = \langle \bar{\psi} \psi \rangle = \langle \bar{\psi} \psi \rangle = \langle \bar{\psi} \psi \rangle = \langle \bar{\psi} \psi \rangle$$

I have re-engage with Don on a project that Chris Chen and I started a while back where we take a quarterly reading on violations incurred by the systems and enforcement actions taken by DDW. Our intention was to have the information validated by DDW: SDWIS/State
